## For completing the Fraternal Orders Annual Statement Supplement

### GENERAL

- Two copies of this Supplement completed according to these instructions should be filed by ALL Fraternal Benefit Societies together with two copies of the Fraternal Orders Annual Statement, completed pursuant to the laws of the state of domicile.

The Supplement must be returned with pages of the same size and in the same sequence as the blank that is provided by the Department. **All pages of the Supplement must be bound or stapled together inside the cover.** Supplements returned as loose pages without covers or in a smaller or larger size will not be accepted as meeting the filing requirements.

- All forms are to be filed by March 1, **Address all forms to: Life Bureau, New York State Department of Financial Services, One State Street, New York, New York 10004**
- Pages 2 and 3 of this Supplement are intended to identify those adjustments necessary to modify the society's Annual Statement filed on a Home State basis to reflect New York Law, Rules, Regulations and reporting requirements. Domestic societies must complete the Annual Statement pursuant to New York Law, Rules, Regulations and reporting requirements and, accordingly, shall not complete pages 2 and 3.
- The format of the Supplement has been designed to facilitate data capture. Therefore, do not change the captions for pre-printed items, lines or columns and do not insert write-ins between pre-printed items, lines or columns. An entry for which there is no specific pre-printed line or item must be reported with an identifying caption in the "Details" section on the appropriate page. These write-in lines should be reported in descending order. If there is not sufficient room in a "Details" section to accommodate all write-ins, report the additional "Details" sections on the Overflow Page, Page 32.
- If there is nothing to report on any of the Exhibits or Schedules write "None" or "N/A" across the face of the Exhibit or Schedule.
- In many instances items reported on Pages 2 and 3 in the Home State Annual Statement are not readily reconcilable with Page 4, and supporting Exhibits and Schedules. When an item reported in the Annual Statement is derived from a number of accounts, or parts thereof, a reconciling analysis must be attached to this Supplement.

#### EXAMPLE:

Reconciliation of Exhibit 12, Line 30 (Aggregate write-ins for decreases in ledger assets)

	Current Year	Prior Year	Change
Page 3, Line 16	\$ 18,500	\$ 28,500	
Page 3, Line 18	110,000	200,000	
Page 3, Line 22.4	80,000	85,000	
Page 3, Line 23(Aggregate write-in line)	<u>(-)5,000</u>	<u>40,000</u>	
	<u>\$203,500</u>	<u>\$353,500</u>	<u>\$150,000</u>

#### JURAT PAGE — PAGE 1

The jurats in both copies of the NAIC Annual Statement and the New York Supplement must be signed by the same officers and notarized. Photocopies will NOT be accepted.

#### NEW YORK ADJUSTMENTS TO THE NAIC BLANK FILED ON A HOME STATE BASIS — PAGES 2 AND 3

Both of these pages contain "Details" sections. The totals of these sections are carried forward to a summary line; for example, on Page 2 the total of "Details of Admitted Asset Adjustments" from Line 0299 is carried forward to Line 2.

Each item reported in the Annual Statement completed on a Home State basis that requires an adjustment in order to be reported in accordance with New York requirements should be listed separately in the appropriate "Details" section, unless a printed line has been provided in the Supplement. Any adjustment on these pages which is not self explanatory should be described in an attachment to this Supplement.

#### ASSETS — PAGE 2

##### Line 2 — Total New York Admitted Asset Adjustments

When the asset adjustments include changes in assets that are individually listed in one of the invested asset schedules, attach a statement to this Supplement providing a full description and the amount of change for each individual item.

#### LIABILITIES, SURPLUS AND OTHER FUNDS — PAGE 2

##### Line 5 — New York Liability Adjustments

Include any adjustment necessary to reflect an additional liability or amount of liability that is required pursuant to New York Law, or to reclassify liabilities established on a Home State basis for reporting to New York. Each adjustment should be listed in the "Details of All Other Liability Adjustments," identified by item number, caption and amount.

##### Line 8 — Surplus Fund Adjustments

Include any New York adjustments to Home State A.S. Page 3, Items 26, 27 and 28.

##### Line 9 — Adjustment to Home State A.S., Page 3, Item 29, Unassigned Funds

The total adjustment on Line 9 should represent the net effect of all other adjustments reported on Lines 2, and 5.

#### SUMMARY OF OPERATIONS — PAGE 3

##### Line 2 — Total New York Adjustments to Net Income

Include adjustments to assets and for liabilities affecting income. Amounts reported should be the change between years.

The amounts reported at these lines should be the current year's adjustment. **DO NOT REPORT THE CHANGE BETWEEN YEARS.**

##### Line 5 — Current year adjustment to assets and/or liabilities affecting net income.

Include the actual difference between the amounts reported in the Home State Annual Statement and assets and/or liabilities reported in the New York Supplement.

##### Line 6 — Current year adjustment to net unrealized capital gains or (losses)

**ACCIDENT AND HEALTH POLICY EXPERIENCE EXHIBIT INSTRUCTIONS**

**This exhibit is required to be filed no later than March 1**

**This form has been restructured to be more consistent with the insurance categories and columns in the national version of the Accident and Health Policy Experience Exhibit. Please refer to the Instructions for that exhibit also when completing this exhibit.**

1. The name of the company must be clearly shown at the top of each page or pages.
2. Dollar amounts should be reported in whole dollars.
3. The Exhibit will show information concerning direct business written on policy forms approved for use in the United States with a final total for all policy forms (including non-U.S. policy forms) on the bottom line of the Exhibit. If a group or individual form was ever issued in New York, its experience must be reported separately by policy form number, unless prior approval has been obtained from the Superintendent to combine experience. Insert as many lines under each classification as are needed. The form numbers should appear in alphanumeric form number order within each category. The experience for combinations of policy forms of the same category type with a premium volume less than 5% of the total for that category that were never issued in New York may be merged and reported on a single line. Such combinations should be identified as "Non-New York." Other policy forms never issued in New York whose experience is reported by policy form should be identified as a Non-New York form, by placing the designation (Z) to the left of the policy form number.
4. The Exhibit will show information for each listed product for Individual, Group, and Other business categories. Subtotals by product within each individual category are required for all columns, except Years Issued, Expected Lifetime Loss Ratio, and Rate of Commission And Expense. All Section Totals should agree with Section Totals in the national version of the Accident and Health Experience Exhibit.
5. A Summary Page shows a reconciliation with Schedule H for Individual, Group and Credit policies separately and in total for companies filing the Life, Accident and Health, Fraternal and Property/Casualty Annual Statement, and a reconciliation of these policies in total only with the specified exhibits of the Health Annual Statement for companies filing that statement.
6. This Exhibit should not include any data pertaining to double indemnity, waiver of premiums, and other disability benefits embodied in life contracts.
7. Premiums Earned (Column 5) should not include the change in contract reserves, but both Premiums Written (Column 3) and Premiums Earned should include membership charges, modal loadings, and policy fees, if any.
8. "Years issued" should be presented as the first year the form was issued followed by a hyphen followed by the last year issued; e.g., 1998-2000.
9. The entries in Columns (11), (12), (17) and (19) should be expressed as **ratios**, not percents, and should be rounded to three places to the right of the decimal point.

**DEFINITIONS**

**Accident Only or AD&D**

**Policies that provide coverage, singly or in combination, for death, dismemberment, disability, or hospital and medical care caused by or necessitated as a result of accident or specified kinds of accidents. Types of coverage include student accident, sports accident, travel accident, blanket accident, specific accident or accidental death and dismemberment (AD&D).**

**Administrative Services Only (ASO) and Administrative Services Contract (ASC)**

**An uninsured accident and health plan is where an administrator performs administrative services for a third party that is at risk, but has not issued an insurance policy. The health plan bears all of the insurance risk, and there is no possibility of loss or liability to the administrator caused by claims incurred related to the plan. Under an ASO plan, claims are paid from a bank account owned and funded directly by the uninsured plan sponsor; or, claims are paid from a bank account owned by the administrator, but only after receiving funds from the plan sponsor that are adequate to fully cover the claim payments. Under an ASC plan, the administrator pays claims from its own bank accounts, and only subsequently receives reimbursement from the plan sponsor.**

**Comprehensive/Major Medical**

**Policies that provide fully insured indemnity, HMO, PPO, or Fee for Service coverage for hospital, medical, and surgical expenses. **EXHIBIT OF PARTICIPANTS IN ACCIDENT AND HEALTH CONTRACTS  
INSURED OR ADMINISTERED BY THE SOCIETY  
(DIRECT BUSINESS IN THE STATE OF NEW YORK)**

**INSTRUCTIONS**

This exhibit is required to be filed no later than **March 1**.

1. If there is no data to report in a cell, insert a zero (-0-). To avoid double counting of persons covered in part by another insurer, another policy issued by you, or who are self-insured in part, only report counts for policies which represent an insured's principal coverage (i.e., comprehensive policies). Do not include counts for persons who would be counted in another insurer's statement as principal insurer, or who are counted in your self-insured counts (i.e., do not include supplemental, wrap around type policies). However, premiums and counts for "Minimum Premium Plan" arrangements should be included in the Insured Business section, and Medicare Supplement policies should be included as insured counts, as well.
2. This exhibit should not include any data pertaining to double indemnity, waiver of premiums and other disability benefits embodied in life contracts.
3. Line 4 of columns 1 and 2 should equal line 26, columns 1 and 2 of the Accident and Health Insurance Exhibit section of the Annual Statement page entitled Direct Business in the State of New York.
4. The schedule of **Self-Insured Business** should only include contracts that are substantially self-insured. For example, in arrangements where an employer or association funds substantially all of its claims, with the insurer participating in the arrangement retaining only a nominal premium or retention for administrative services (e.g., Administrative Services Only (ASO) arrangements), the administering insurer should include the appropriate contracts/lives counts in its schedule of self-insured business reported in this exhibit. However, where an employer, association, or other entity is insured by a licensed carrier for a substantial portion of its coverage, such as where it purchases a hospital policy from a licensed insurer while self-insuring its surgical/medical coverage, the company administering the self-insured portion should not include these policies in its counts of self-insured business. These policies should be included in the insured counts of the insurer providing the hospital coverage, whether it is the same insurer that is administering the self-insured portion or another insurer.

**ANALYSIS OF VALUATION RESERVES - FRATERNAL****INSTRUCTIONS**

1. Show amounts of life insurance in force and annual income for Annuities and Supplementary Contracts in thousands (000 omitted). Show reserve amounts in **whole dollars**.
2. **Column 2, "Location in Last Year's Analysis of Valuation Reserves":**  
Insert the 7 digit line number on which the item was reported in last year's Analysis of Valuation Reserves. For new valuation bases, enter "0000000".  
The NYSID will be using this information, which will be submitted electronically in the future, to link current year-end data to past year-end data in order to electronically trend the information contained on the AoVR. Incorrect information will have to be re-filed with the Department.
3. **Cross Checks (Data Consistency) - For NYS Domestic Companies only.**  
The information presented in Exhibit 5 of the NAIC Life and Accident and Health Annual Statement must be identical to the information presented in the Analysis of Valuation Reserves. Specifically:
  - a. The Net Totals, by section, should agree.
  - b. The reserve basis lines should agree.
4. If additional pages are needed to complete this Schedule, follow General Instruction No. 4 on the inside front cover of this Supplement.
5. **Life insurance - For NYS Domestic Companies only:** The total amounts in force should agree with the appropriate values reported in the Exhibit of Life Insurance of the Annual Statement.
6. **Annuities and Supplementary Contracts with Life Contingencies:**
  - a. Show annual income figures for all fixed income immediate annuities and for all fixed income deferred annuities and Supplementary Contracts With Life Contingencies.
  - b. Structured settlements: Amounts of annual income are required only for those contracts involving payment made annually or more frequently.
  - c. Annual income figures for other annuities are not required.
7. **Valuation bases:**  
Each combination of mortality table, valuation interest rate and valuation method constitutes a separate valuation basis. Use a separate line for each valuation basis and indicate the following information with respect to each basis:
  - a. **Mortality and/or Morbidity Table**  
Variations of mortality such as substandard multiples, sex and sex-blend parameters should not be considered separate mortality tables. Age Last Birthday (ALB) and Age Nearest Birthday (ANB) are considered separate tables.
  - b. **Valuation Interest Rate**  
Where the span of such range is less than or equal to 1/2%, it is preferable to combine a range of valuation interest rates. Where split valuation interest rates apply, the number of years to which each rate applies must be indicated.
  - c. **Valuation Methods:**  
Please indicate, where applicable, the valuation method used, e.g. CRVM, Modified, NLP, Mean, Mid-terminal. Additionally, please indicate whether the reserve is calculated using (1) tabular net premiums (TNP) or (2) present value of promised benefits (PVB) less the present value of future net contributions (PVC).  
Note: If a modified basis is used, indicate the modification used.
  - d. **Issue Years**  
Always indicate the applicable span(s) of issue years to which the valuation basis is applied. For otherwise identical valuation bases, it is preferred that issue years be grouped. (i.e. For the same basis, issue years 90, 91, 92 may be grouped as 90-92.)
  - e. **Additional information of life insurance:**  
Include, where applicable:
    - (i) Immediate Payment of Claims (IPC)
    - (ii) Continuous Functions (CNF)
    - (iii) Curtate Functions (CRF)
  - f. **Adult/Juvenile Entries**  
Always use separate lines for all business covering entries in both the Adult and Juvenile columns with otherwise identical valuation bases. For example, if one valuation basis would otherwise contain reserves in both the Adult and Juvenile columns, split the valuation basis into 2 separate valuation bases, one basis used for the Adult entry, the other used for the Juvenile entry.
  - g. **Interest Sensitive Life Types (ISL):**  
Always use separate lines for Interest Sensitive Life Types and identify those as such with (ISL) next to the valuation basis description. For example, if one valuation basis would otherwise contain reserves for both Interest Sensitive Life Types and other life insurance (e.g. traditional), split the valuation basis into 2 separate valuation bases and label the valuation basis containing the Interest Sensitive Life Types with (ISL) next to the valuation basis description.
  - h. **Annuities:**  
Always use separate lines for all Annuity business for each unique combination in 7.i. below. For example, use 2 separate lines for Immediate (IMM) and Deferred (DEF) annuities with otherwise identical valuation bases; as well as, use 2 separate lines for deferred annuities in accumulation status (DEF NFI) and deferred annuities in payout status (DEF FI).
  - i. **Additional information for annuities:**  
Include, where applicable:
    - (i) Immediate (IMM), Deferred (DEF) or Structured Settlement (SS)
    - (ii) Fixed income immediate annuities (Fixed Income, FI) or annuities where annuity income is not yet determined (Not Fixed Income, NFI)
    - (iii) Immediate annuities are those where the first payment begins in thirteen or fewer months after issue.

REMARKS:

- (1) All miscellaneous reserves must be included in Section VII, except in the case of subsection E, when the total liability for a substandard policy or rider (such as a policy or rider issued on rating-in-age basis or on a special class basis, etc.) is not obtained by a valuation of the standard reserve and a separate valuation of the substandard extra reserve, the substandard extra reserve need not, at the company's option, be reported in subsection E of Section VII. If the reserve reported in Section VII A is calculated using a different interest rate from that of the basic reserve, the rate used in calculation of the excess reserve should be specified in Section VII A.
- (2) If additional reserves corresponding to items in Exhibit 5 of the Home State Annual Statement are held as a result of cash flow testing then such additional reserves are to be shown here.
