Dear Superintendent Lawsky and General Counsel Syracuse,

You have probably received other e-mails from folks concerned about the "BitLicesnse" proposal. In addition to privacy considerations, one thing I would like to point out is its inconvenience. Bitcoin has many benefits for businesses and people in general (if you are unfamiliar with these I would be happy to go into more depth or you can do some research on your own), and so we should be trying to encourage people to use Bitcoin, but if this proposal passes it will clearly discourage people and just make things more difficult. Please do not allow this proposal to go through.

Sincerely,  
Dustin Goldklang
