The proposed regulations to regulate digital currencies such as Bitcoin are a total invasion of privacy and unconstitutional. Just drop the whole absurd business and promote individual freedom instead.

Great News!  
God created you, owns you and gave you commands to obey.  
You have disobeyed God - as your conscience very well attests to you.  
God's holiness and justice compel Him to punish you in Hell.  
Jesus Christ became Man, was crucified, buried and rose from the dead as a substitute for all who trust in Him, redeeming them from Hell.  
If you repent (turn from your sin) and believe (trust) in Jesus Christ, you will go to Heaven. Otherwise you will go to Hell.  
Warning! Good works are a result, not cause, of saving trust.
