

Instructions on Filing an Amended Notice of Exemption

Below provides step-by-step instructional information for amending your exempt status. After you filed a new exemption, there might be a point in time that you no longer qualify for an exemption because your circumstances have changed. If that is the case, then you will need to amend your previously filed exemption. Amend an exemption when you still qualify for any exemption, but if you do not qualify for any exemption, then you terminate your exemption. Please read the “Instruction on Terminating a Notice of Exemption.”

After you filed your initial exemption, you will be able to amend your exemption if you qualify for different exemptions. For example, if initially you only qualified for exemption 500.19(a)(2), but later qualify for exemption 500.19(c), then you should amend your exemption. Please note, your most recent exemption filing will take precedence over previously filed exemptions.

If you qualify for a limited exemption 500.19(a)(1), 500.19(a)(2), 500.19(a)(3), 500.19(c), or 500.19(d), then you will still be required to follow certain provisions of the regulation including a cybersecurity program, cybersecurity policy and procedures, access privileges, a risk assessment, third party service provider security policy and limitations on data retention and a filing of a Certification of Compliance. Of note, since you are amending an exemption, under the regulation, you will have 180 days to come into full compliance with the entire regulation.

The following information will be necessary for your filing and DFS suggests locating it prior to commencing your filing:

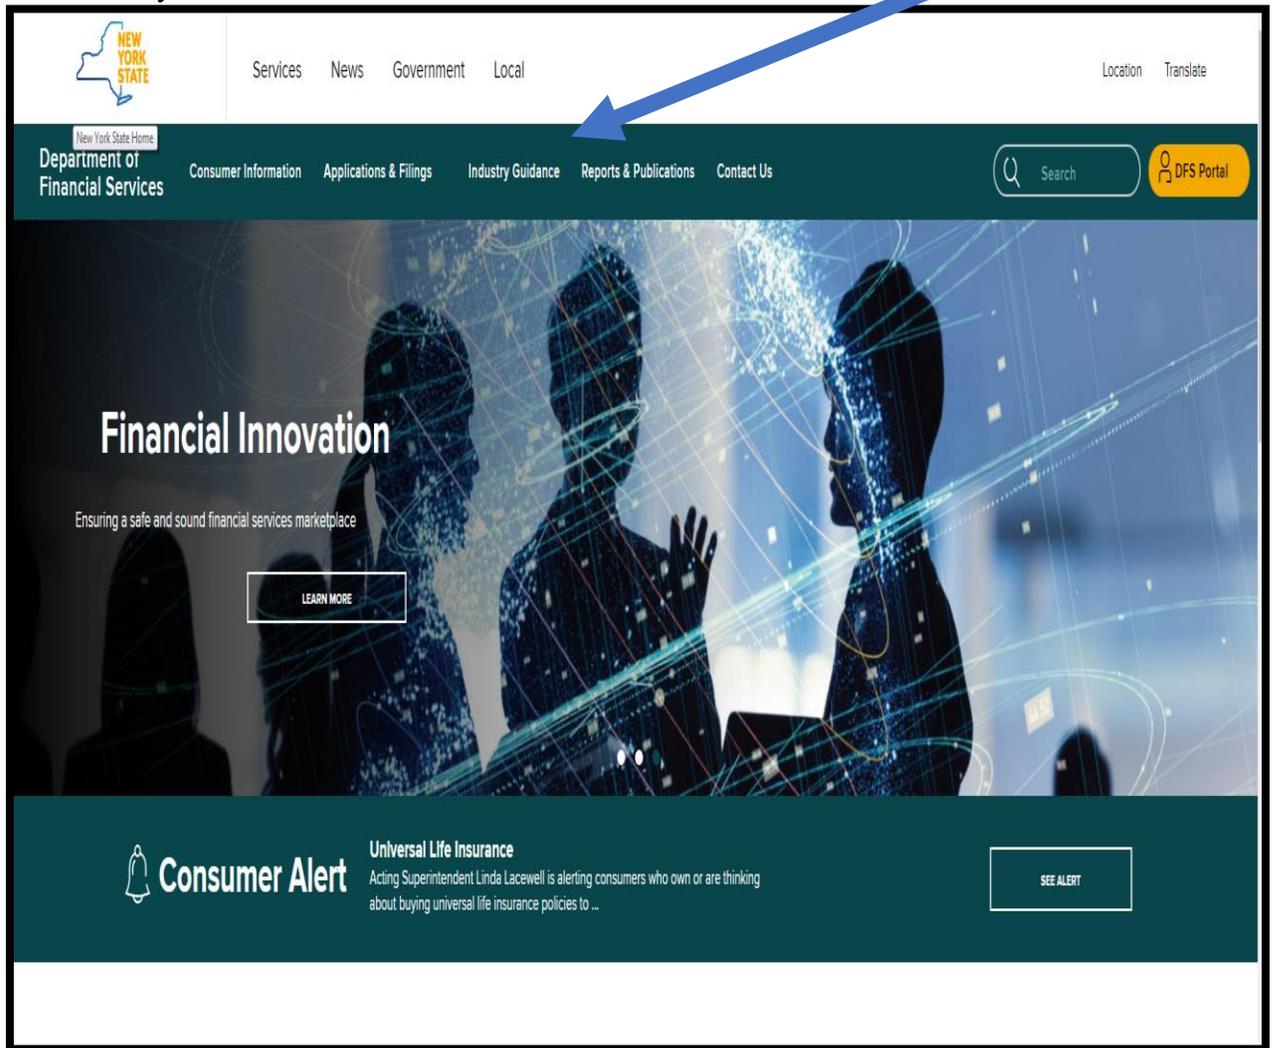

- The license number for the companies or individuals for whom you are amending an exemption filing. Companies and individuals may have different types of license numbers, the DFS portal has been built to support usage of: NYS License #, NAIC/NY Entity #, NMLS #, Institution #. If you do not know your number, a look up feature is included in the portal or on the DFS Website under “Who we Supervise.”

Please see information below on what exemptions you can file for:

- 500.19(a)(1) – You are entitled to this exemption when a Covered Entity has fewer than 10 employees, including independent contractors. This is a limited exemption and you must still design and implement a cybersecurity program that meets some but not all the regulatory requirements.
