C. Reinsurance

Assumed reinsurance

Assumed reinsurance accounted for 25.3% of the Company's gross premium written at December 31, 2011. Approximately 99.98% of the Company's assumed premium is attributable to the pooling agreement with the Company's affiliate, FFCIC. The remaining .02% of the Company's assumed premiums are from certain mandated pools and associations. During the period covered by this examination, the Company's assumed reinsurance has decreased since the last examination. The Company utilizes reinsurance accounting as defined in Statement of Statutory Accounting Principle ("SSAP") No. 62R for all of its assumed reinsurance business.

Effective January 1, 2004 the Company entered into a pooling agreement with FFCIC. Under the terms of the agreement, UFFIC cedes 100% of its assumed and direct business to the FFCIC, net of any external reinsurance. FFCIC then retrocedes 2% of its net direct and assumed business to the Company. The pooling agreement allocation percentages have remained unchanged since inception, however, the agreement was amended effective March 5, 2010 modifying the terms of the provision relating to cash calls. Both the agreement and subsequent amendment were non-objected to by the Department in letters dated June 29, 2004 and March 5, 2010 pursuant to the requirements of Section 1505(d)(2) of the New York Insurance Law.

All significant ceded reinsurance agreements in effect as of the examination date were reviewed for the required clauses.

Insolvency Clause

The insolvency clauses in the Company's ceding agreements make reference to a novation. Department Circular Letter No. 5 (1988) states, in part, the following in reference to a novation:

> "Any references to such an event in the reinsurance agreement should indicate that, prior to the implementation of a novation, the certificate of assumption on New York risks would have to be approved by the Superintendent. . ."

It is recommended that the Company include the above referenced language from Department Circular Letter No. 5 (1988) in all reinsurance contracts which make reference to a novation.

Examination review found that the Schedule F data reported by the Company in its filed annual statement accurately reflected its reinsurance transactions. Additionally, management has represented that all material ceded reinsurance agreements transfer both underwriting and timing risk as set forth in SSAP No. 62R. Representations were supported by appropriate risk transfer analyses and an attestation from the Company's Chief Executive Officer and Chief Financial Officer pursuant to the NAIC Annual Statement Instructions. Additionally, examination review indicated that the Company was not a party to any finite reinsurance agreements. All ceded reinsurance agreements were accounted for utilizing reinsurance accounting as set forth in SSAP No. 62R.
