

Department of Financial Services

ANDREW M. CUOMO
Governor

LINDA A. LACEWELL
Superintendent

June 15, 2020

To the Governor and Legislature:

As Superintendent of the New York State Department of Financial Services, I am pleased to submit the 2019 Annual Report as required by Article 2, Section 207 of the Financial Services Law.

Throughout 2019, the Department carried out its mission to protect consumers and to promote the development of sound, fair financial services. The Department's varied work before the COVID-19 crisis is detailed in this report.

As its charter instructs, the Department continues to work aggressively to foster the growth of a fair, robust financial services industry and to protect consumers.

I hope you find the report useful.

Respectfully submitted,

A handwritten signature in black ink that reads "Linda A. Lacewell".

Linda A. Lacewell
Financial Services Superintendent

Department of Financial Services

2019 Annual Report

Linda A. Laceywell, Superintendent

INTRODUCTION

The Department of Financial Services (DFS) supervises and regulates the activities of nearly 1,800 insurance companies with assets of more than \$4.7 trillion and approximately 1,500 banking and other financial institutions with assets totaling more than \$2.6 trillion, as of Dec. 31, 2019. They include 134 life insurance companies, 1,168 property/casualty insurance companies, about 100 health insurers and managed care organizations, and more than 375,000 individual insurance licensees, 122 state-chartered banks, 80 foreign branches, 10 foreign agencies, 17 credit unions, 13 credit rating agencies, 388 financial services companies, and more than 9,455 mortgage loan originators and servicers.

The **Insurance Division** regulates and supervises all insurance companies that do business in New York. The Division includes the Property, Life and Health Bureaus.

The **Banking Division** supervises banking and other financial institutions through chartering, licensing, registering, and examining safety and soundness. The division is comprised of the following bureaus: Foreign & Wholesale Banks, Community & Regional Banks, Mortgage Banking and Licensed Financial Services.

The **Consumer Protection and Financial Enforcement Division** (CPFED) is responsible for protecting and educating consumers, fighting consumer fraud, and ensuring that regulated entities comply with New York and federal law in relation to their activities serving the public.

The **Cybersecurity Division** was established in 2019 to protect consumers and industries from cyber threats. The Division contains DFS' specialty cybersecurity examiner staff; develops cybersecurity examination and supervision protocols; conducts cybersecurity enforcement investigations with the Consumer Protection and Enforcement Division; and develops key initiatives and compliance measures in areas such as cyber insurance and virtual currency.

The **Research and Innovation Division** was created in 2019 to foster innovation in the marketplace that improves the lives of consumers and makes financial markets healthier and more resilient. The new division positions DFS as a leading "regulator of the future" through improved internal use of technology for overseeing supervised marketplaces and engaging with innovators ranging from incumbents to early state startups that are seeking to bring novel and innovative products and services to market.

The **Capital Markets Division** provides the Department's expertise in complex financial products (bonds, equities, credit, derivatives, and commodities), enterprise risk management, financial analysis, internal controls and audit, research, fiduciary controls, and regulatory accounting. The Capital Markets Division works with the other DFS divisions in examinations and conducts targeted examinations. It has the primary regulatory responsibility for limited purpose trust entities, and wealth management/stock transfer companies. In addition, it leverages the business intelligence that DFS gathers with the aim of analyzing this data to identify emerging risks and macroeconomic trends that can be developed into topical reports and regular industry analysis.

The **Office of the General Counsel** provides advice throughout the agency, coordinates and drafts regulations and legislation, defends the agency, works with the New York State Attorney General, protects the interests of consumers and ensures the stability of New York's financial services market.

This report includes data for 2019, unless otherwise stated. Financial data is for 2018-2019 fiscal year.

MAJOR ACCOMPLISHMENTS

Following the appointment and subsequent confirmation of Superintendent Lacewell, the Department made important gains in 2019 in protecting consumers, safeguarding markets, fostering innovation and promoting the health and sustainability of the financial services sector for the long term. Highlights of some of DFS' efforts and initiatives in 2019 are below.

ENCOURAGING INNOVATION, SAFEGUARDING MARKETS, ENFORCING FINANCIAL SERVICES LAWS

Leading the Nation in Cybersecurity

Under DFS' nation-leading cybersecurity regulation implemented in 2017, businesses are required to establish and maintain documented cybersecurity programs approved and certified by senior corporate officers. In 2019, as a result of DFS' cybersecurity leadership, the Federal Trade Commission and the Conference of State Bank Supervisors proposed increased cybersecurity standards based on our landmark regulation. Further, the National Association of Insurance Commissioners adopted a model data security law that is based on DFS' cybersecurity regulation and which eight states adopted.

Solidifying New York's Position as an Innovation Hub

Under Superintendent Lacewell's leadership, DFS created a Division of Research and Innovation in 2019, putting innovation on an equal footing with banking and insurance within the Department. During the year, the new division began a review of New York's virtual currency regulation, introduced in 2015. In an effort to respond to changes in the marketplace since then, DFS proposed a new method by which DFS-regulated virtual currency firms would be able to list new coins more easily. Under the proposal, the Department will provide a proposed model framework for the creation of company coin-listing policies for existing licensees to tailor to their own operations and risk profiles. Once DFS approves a proposed coin-listing policy, the regulated company may self-certify the listing of new coins on an ongoing basis, consistent with the approved policy. DFS also proposed the possible publication of a list of coins that any DFS-regulated virtual currency entity would be free to adopt for uses that the entity is allowed to engage in. In order to solidify New York's position as the center of both innovation and consumer protection, the Department continually adapts as the financial services industry rapidly evolves.

The Department strives to build upon New York's status as the financial capital of the world to ensure it is also the globe's leading hub for financial innovation. In 2019, DFS joined the Global Financial Innovation Network (GFIN), a consortium of more than 50 financial regulators and organizations from around the world meant to encourage collaboration on a variety of innovation topics, such as regtech and new methodologies for fostering innovative marketplaces. In 2019, New York was selected to host GFIN's second annual meeting; however, the meeting, scheduled for March 30-31, 2020, was postponed due to the COVID-19 pandemic. In 2019, DFS also entered into its first FinTech memorandum of understanding, with the financial regulatory authorities of Israel.

Superintendent Lacewell also took steps in 2019 to engage with the industry through participation in technology conferences and events, such as DC Fintech Week, as well as panel discussions and press interviews. Additionally, the Superintendent visited with leading international innovation stakeholders, including the Financial Conduct Authority and Bank of England in the U.K. and Banque de France and the

French Prudential Supervision and Resolution Authority in France, to establish cross-border linkages in support of collaborative efforts to foster innovation.

In 2019, DFS approved virtual currency licenses, charters, and/or money transmitter licenses for nine companies engaged in the virtual currency business – Bitstamp USA Inc.; Tagomi Trading, LLC; Seed CX Ltd. companies; Bakkt Trust Company; Fidelity Digital Asset Services, LLC; SoFi Digital Assets, LLC; Cottonwood Vending LLC; Robinhood Crypto LLC; and Moon Inc. (dba LibertyX) – and approved the issuance of the first gold-backed virtual currency in New York State, offered by Paxos Trust Company LLC.

Promoting the New York State Banking Charter

DFS continued to promote the New York State banking charter in 2019. The Department approved six new state charters and licenses, including the first de novo commercial bank in a decade, compared with three approvals in 2018.

Protecting New York’s Financial Markets

Enforcement actions ensure that regulated entities comply with New York and federal law in relation to their activities serving the public. In 2019, DFS announced consent orders with global banks for violations of United States sanctions and New York banking laws as follows:

UniCredit S.p.A.: In April 2019, DFS entered into a consent order with UniCredit S.p.A. and its New York branch, UniCredit Bank AG and its New York branch, and UniCredit Bank Austria AG after a DFS investigation found that each of the entities violated U.S. sanction laws from as early as 2002. Pursuant to the settlement, the UniCredit entities agreed to pay a civil monetary penalty of \$405 million. UniCredit S.p.A. further agreed to engage an independent external party with Office of Foreign Assets Control (OFAC) expertise to conduct an annual OFAC compliance review pursuant to a Cease and Desist Order entered into with the Board of Governors of the Federal Reserve, and to provide the Department with any reports prepared by that independent party.

Standard Chartered Bank: DFS joined the U.S. Departments of Justice and Treasury, the New York County District Attorney’s Office, the Federal Reserve Bank of New York, and the Financial Conduct Authority in the United Kingdom, to finalize concurrent settlement agreements with Standard Chartered Bank for a total of more than \$1 billion in fines and forfeiture. As a critical component of its enforcement action, DFS further imposed enhanced oversight and remediation of the bank’s compliance function both globally and at its New York branch. These settlements represent the culmination of more than five years of joint investigation among the agencies into the bank’s violations of New York State and federal laws and regulations that restrict certain persons, countries, and entities from accessing the U.S. banking system. In entering into an April 2019 consent order with the Department, the Bank admitted that it failed for years to detect and prevent Iran-connected customers – many of whom hid behind shell and front companies, and some of whom received assistance from Bank employees – from engaging in thousands of U.S. dollar transactions processed by the bank through the U.S. financial system. The transactions were performed for the benefit of Iranian individuals and entities, totaling hundreds of millions of dollars in illegal payments. In January 2019, DFS also fined Standard Chartered Bank \$40 million for attempting to rig foreign exchange transactions between 2007 and 2013.

MUFG Bank: The Department entered into an agreement with MUFG Bank, under which MUFG paid DFS \$33 million to settle all claims related to the bank's conduct occurring while a New York State-regulated institution.

PRIORITIZING CONSUMER PROTECTION

Protecting New York Consumers Amid the Federal Regulatory Void

In 2019, the Department named its first Director of Consumer Advocacy and Student Advocate, strengthening its mission to protect and empower New York consumers and student borrowers in the midst of federal rollbacks. Working across the agency and the state, the Director of Consumer Advocacy provides expertise and leadership in consumer advocacy to ensure consumers remain at the center of the Department's decisions and priorities.

Holding Regulated Entities Accountable, Ensuring Consumer Restitution

DFS finalized settlements in September 2019 with six life insurance companies: Companion Life Insurance Co., The Guardian Insurance & Annuity Company, Inc., Northwestern Mutual Life Insurance Co., The Penn Mutual Life Insurance Co., The Prudential Insurance Company of America, and The United States Life Insurance Company in the City of New York for violations of New York insurance regulations in deferred-to-immediate annuity replacement transactions. In settling with DFS in September 2019, the insurers agreed to pay a collective \$1.15 million in restitution to New York State consumers, and \$673,000 in penalties. As a result of the settlements, many New York consumers will receive additional restitution in the form of higher monthly payout amounts for the remainder of their contract terms. The insurers also agreed to take corrective actions, including revising their disclosure statements to include side-by-side monthly comparison information and revising their disclosure, suitability, and training procedures to comply with regulations.

DFS' investigation found that the six carriers failed to properly disclose to consumers income comparisons and suitability information, causing consumers to exchange more financially favorable deferred annuities with immediate annuities. Many New York consumers received incomplete information regarding the replacement annuities, resulting in less income for identical or substantially similar options.

DFS fined American Progressive Life and Health Insurance Company of New York \$260,000 in September 2019 for rescinding certain life insurance policies without the consent of policyholders. A DFS investigation resulting from a consumer complaint found that from 2010 to 2019 American Progressive rescinded reduced paid-up life insurance policies with a cash value of \$500 or less and paid the cash value to 260 policyholders without the consent of the policyholders, in violation of New York Insurance Law. The identified policies originally had a total face amount of \$2,333,438 and total reduced paid-up death benefits of \$32,945.

Equifax Settlement: Securing Restitution for New York Consumers

DFS finalized a settlement in July 2019 with Equifax Inc., Equifax Information Services, LLC, and Equifax Consumer Services, LLC, following an investigation into the 2017 Equifax data breach, which exposed the sensitive information of millions of Americans. DFS reviewed Equifax's security practices prior to and at the time of the breach, as well as communications and services provided to consumers after announcement of the 2017 data breach. DFS' investigation uncovered that Equifax's information security program failed to

adequately safeguard sensitive consumer information. DFS also found that Equifax failed to detect a critical vulnerability; failed to adequately support database segmentation; possessed an expired security certificate; and possessed inadequate access management controls. DFS further found that Equifax's responses following announcement of the data breach, on September 7, 2017, failed to provide adequate assistance to affected consumers.

Under the July 2019 settlement, Equifax agreed to pay a civil penalty of \$10 million to New York State. In connection with Equifax's agreement with consumer plaintiffs in a related litigation, Equifax agreed to provide restitution to New York consumers pursuant to a settlement fund. In addition, Equifax agreed to undertake certain actions with respect to information technology and security practices pursuant to a June 25, 2018 consent order between Equifax Inc. and the Multi-State Regulatory Agencies, to which DFS is a party.

Payback for Policyholders

In September 2019, DFS fined American Progressive Life and Health Insurance Company of New York \$260,000 for rescinding certain life insurance policies without the consent of policyholders and required the company to provide restitution to policyholders or their beneficiaries for each violation. A DFS investigation resulting from a consumer complaint found that from 2010 to 2019 American Progressive rescinded reduced paid-up life insurance policies with a cash value of \$500 or less and paid the cash value to 260 policyholders without the consent of the policyholders, in violation of New York Insurance Law. The identified policies originally had a total face amount of \$2,333,438 and total reduced paid-up death benefits of \$32,945.

Protecting Consumers from Predatory Lending

DFS commenced a civil action in August 2019 with the New York Attorney General against Vision Property Management and its CEO, alleging that Vision and its affiliated companies operated an illegal, unlicensed mortgage-lending business profiting from predatory subprime home loans at the expense of some of the most vulnerable New Yorkers, primarily in upstate and central New York. Subsequently, DFS and the NYAG reached a \$2.77 million settlement with Vision's investor and business partner Atalaya Capital Management LP for its role in facilitating Vision's illegal operation. Under the settlement, Atalaya paid \$2.4 million in consumer restitution, a civil penalty of \$250,000 and additional relief of about \$123,800.

Stepping Up for Students

Governor Cuomo's 2019 Executive Budget included legislation authorizing the Department to license and examine student loan servicers. The law addresses common abuses that are found in the student loan servicing industry. In addition, the Department promulgated regulations in October 2019 that include additional measures to protect consumers from unscrupulous practices in the student loan servicing industry. The law requires companies that service student loans to provide clear and complete information concerning fees, payments due and terms and conditions of loans; apply payments in borrowers' best interest rather than in ways that maximize servicer fees; inform borrowers of income-based repayment and loan forgiveness options; and provide timely and substantive responses to consumer complaints.

Following the Department's appointment of its first Student Advocate and Director of Advocacy, DFS continued to advocate for students in the face of weakened federal protections. In August 2019, the

Department launched a “Step Up for Students” initiative designed to protect student loan borrowers and educate them about the new student loan servicing law. As part of the initiative, the Department issued a Student Loan Borrower Bill of Rights and collaborated with state and local officials to hold town hall-style events at multiple venues across the state throughout the fall of 2019.

DFS also created a new Student Debt Advisory Board as part of the Step Up for Students initiative to advise on consumer protection, student financial products and services, and communities significantly impacted by student debt. The advisory board meets quarterly, and this group of experts is charged with identifying and assessing the impact of emerging practices on consumers and other market participants related to student debt. The board also provides formal input on consumer engagement, policy development and research.

In 2019, the Department’s Student Protection Unit (SPU), created by Governor Andrew Cuomo in 2015, conducted 63 workshops at schools, libraries, community centers, and other locations across the state. The workshops provided vital information about the best methods for financing education, as well as available loan repayment options. SPU also reviewed and successfully resolved complaints regarding student financial products and services, including student loans, student banking products, student debt relief services, and student health insurance. SPU accepted complaints through DFS’ online complaint portal and by mail.

SPU also updated the [Student Lending Resource Center](#) on the Department’s website to bring it in line with the Step Up for Students initiative. The website includes tips for prospective college students, their families, and graduates already in repayment to help them navigate decisions relating to financing and repaying a college education. In addition, SPU collaborated with the Enforcement Unit on the investigation of multiple student loan consolidation and debt relief companies, outlined below.

DFS finalized a settlement in January 2019 with Conduent Education Services, LLC, f/k/a Xerox Education Services, LLC, f/k/a and d/b/a ACS Education Services, Inc., under which Conduent agreed to pay \$1 million in penalties to the State and \$8 million in restitution to New York consumers. Conduent, which has wound down its student loan servicing business, also agreed not to service student loans (except for Perkins Loans) for a period of five years. The settlement followed an investigation to determine whether the company had complied with applicable laws while servicing federally guaranteed and private student loans. DFS’ investigation found that Tuition Options engaged in the business of a sales finance company without proper Department licensing and failed to comply with the E-Sign Act before providing Truth in Lending Act disclosures to consumers electronically. DFS further found that EDvantage LLC provided New York consumers with promissory notes that allowed for capitalized interest, which is unlawful in New York. Tuition Options LLC agreed to apply for applicable Department licenses. EDvantage LLC also agreed to remove references to capitalization from its promissory note template.

Improving Integrity in the Bail Business

In November 2019, DFS issued a final regulation that raises the standards of integrity in the bail business, protects vulnerable New Yorkers from abuses in the industry, and increases transparency in and understanding of the bail industry. The final regulation follows a series of state-wide public listening sessions held jointly during the summer of 2019 with the New York Department of State, and extensive public comment from consumers, advocates, industry and government stakeholders.

Under the regulation, among other provisions, bail agents may not charge fees other than the premiums set by statute; agents and insurance companies may only use forms approved by the Superintendent, which serves to limit abusive terms and ensure consistency for bail bond purchasers; and collateral of 10% or less of the bond amount will be deemed reasonable.

Fostering Financial Inclusion

The Banking Development District Program is a DFS priority, as it assists low-to-moderate income communities in obtaining better access to affordable financial services and helps small businesses to develop and grow as part of New York's communities.

In 2019, DFS approved the 50th BDD designation, in the Towns of Croghan, Denmark and New Bremen and the Villages of Croghan and Castorland in Lewis County. DFS approved two other new BDDs in 2019: Hamlet of Bridgeport, Madison and Onondaga counties, and Town of Wilson, Niagara County. In 2019, DFS received new inquiries relating to two communities seeking to establish a BDD. As of December 31, 2019, the BDD designation process had begun for one of those two. DFS also saw an increase in inquiries from credit unions, resulting from the amendment to Section 96-d of NYBL which now permits credit unions to participate in the program.

The Department reviewed 13 BDD Request for Renewal of Deposit applications and in each case issued recommendations for the renewal of deposits. DFS also reviewed five BDD Progress Reports for which it issued responses noting satisfactory progress.

Preventing Discrimination in Healthcare

DFS continued its efforts to prevent discriminatory practices in healthcare during 2019. In response to the Trump Administration proposed repeal of a federal regulation providing that the Affordable Care Act's non-discrimination protections based on sex include protections based on gender identity, DFS issued guidance to insurers in June 2019. The guidance reminded insurers that, regardless of what occurs at the federal level, New York State has its own state laws that prohibit discrimination based on sexual orientation, gender identity or expression and transgender status. Additional guidance advised that all insurers, except for grandfathered health plans, must provide coverage for PrEP for the prevention of HIV infection at no cost-sharing and cover screening for HIV infection at no cost-sharing. Coverage for PrEP for the prevention of HIV infection is vital to ending the AIDS epidemic in New York, and the Department will continue to ensure full compliance with this important consumer health protection.

Addressing Surprise Medical Bills

In 2019, DFS issued a new report detailing the successes of New York's first-in-the-nation out-of-network law, which protects consumers from emergency and surprise bills from out-of-network doctors and other healthcare providers, including an increasing number of dispute resolution requests. The law, which takes consumers out of the dispute process, has saved millions of dollars for New York consumers. The Department also proposed an amendment to the law in 2019 to strengthen the regulation and further protect consumers following a report of a consumer who received surprise bills totaling hundreds of thousands of dollars that

weren't covered by his healthcare plan. The proposed amendment requires additional notice to consumers about surprise bills under certain circumstances.

Protecting Reproductive Rights

The Department took several steps to protect women's access to comprehensive and affordable health services, including:

Addressing Maternal Depression: DFS promulgated a regulation in 2019 that made explicit that health insurance policies, including child health insurance plan policies, that cover maternal depression screening and referrals for treatment must provide coverage under the mother's policy and under the policy in which the infant is covered as such services are an important preventive service for both the mother and the infant.

Contraceptive Services: DFS issued guidance implementing the Comprehensive Contraception Coverage Act (CCCA) which requires insurers to provide coverage for contraceptive drugs, devices, and products approved by the FDA. The guidance advised insurers that where the FDA has approved one or more therapeutic and pharmaceutical equivalent versions of a contraceptive drug, device, or product, the insurer must cover at least one therapeutic and pharmaceutical equivalent versions without cost-sharing. Further, insurers were advised that they must allow for the dispensing of the entire 12-month supply of a contraceptive at the same time and may not impose any restrictions or delays on the coverage, such as preauthorization requirements, step therapy protocols, or quantity limits on a 12-month supply or less. DFS also issued a regulation to establish requirements regarding the formulary exception process for contraceptives not covered on the insurer's formulary, including time frames and format to request the exception.

Ensuring Employer Contraceptive Coverage: The Department signed consent orders with 10 health insurance companies for violations of New York Insurance Law related to requests by employers for exemptions from providing contraceptive coverage to their members. Under the consent orders, the insurers, collectively, paid a fine of \$509,000 and were required to take corrective actions, including reimbursing members who paid for contraceptives. DFS also announced that DFS has issued guidance reminding New York health insurers that final rules issued by the U.S. Departments of Health and Human Services, Labor, and Treasury do not preempt New York Insurance law, which makes coverage for contraceptive items and services widely available by providing a narrow religious employer exemption.

Supporting Coverage for Fertility Preservation Services: As part of Governor Cuomo's Women's Justice Agenda, changes were made in 2019 to the Insurance Law related to health insurance coverage for in-vitro fertilization (IVF) and fertility preservation services, based on a feasibility study conducted by DFS. The Department also issued model contract language and guidance to ensure that coverage for IVF and fertility preservation services is provided in accordance with the law effective for policies issued or renewed on or after January 1, 2020.

Safeguarding Healthcare, Reducing Health Insurance and Drug Costs

Despite continued federal attacks on the Affordable Care Act (ACA), the Department of Financial Services has steadfastly protected consumers by reducing health insurers' 2020 requested rates. Since the ACA was implemented in 2014, New York has cut the uninsured rate in half from 10% to below 5%, and premiums in the individual market have remained more than 55% lower after adjusting for inflation and before the

application of federal tax credits. DFS reduced insurers' total weighted average increase requested for individuals by 26%, from 9.2% to 6.8%, saving consumers over \$50 million. DFS also reduced requested rates for 2020 small group plans by 35%, from 12.2% to 7.9% for 2020, saving small businesses over \$313 million. Over 1.3 million New Yorkers are enrolled in individual and small group plans.

Enhancing Consumer Protections in Healthcare

DFS proposed a regulation that would require a consumer's insurance identification card to contain standard information to make it easier for both the provider and consumer to understand the type of coverage the consumer has, who the insurer is, whether the plan is fully insured, the provider network name, whether there is out-of-network coverage, and phone numbers for assistance, among other things.

DFS also issued prescription drug guidance advising insurers that under New York law, an insured's copayment shall not exceed the usual and customary cost of a prescribed drug and that any contractual provisions such as "gag clauses" that purport to prevent a pharmacist from providing information to an insured violate New York law and are void and unenforceable. Insurers were directed to take immediate steps to ensure that their health care provider contracts with pharmacists do not contain "gag clauses."

Combatting the Opioid Epidemic

In 2019, DFS continued its ongoing efforts to address the opioid epidemic that continues to have a devastating impact in New York:

Peer Support Services: DFS issued guidance advising that insurers may not deny as a non-covered benefit medically necessary peer support services provided as part of an outpatient substance use disorder program by a facility licensed, certified, or otherwise authorized by the Office of Addiction Services and Supports to provide outpatient substance use disorder services if all the other terms and conditions of the policy or contract are met.

Chapter 57 of the Laws of 2019: DFS issued guidance regarding the numerous changes to Insurance Law and Public Health Law with respect to health insurance coverage for mental health and substance use disorder (SUD) treatment contained in Chapter 57 of the Laws of 2019. Some of the changes included further restrictions on concurrent review of SUD treatment, new restrictions on prior authorization and concurrent review for inpatient mental health treatment, restrictions to prior authorization requirements for drugs to treat SUD, and cost-sharing limitations on both outpatient SUD and outpatient mental health treatment.

Fighting Insurance Fraud and Financial Fraud

DFS has a longstanding commitment to combating financial fraud. It is responsible for the detection and investigation of insurance and financial fraud and the referral for prosecution of persons or entities that commit those frauds. DFS investigations led to 481 arrests, up 33% from 2018, for insurance fraud and related crimes in 2019, including 125 for healthcare fraud. DFS' criminal investigations resulted in \$14.9 million in court-ordered restitution in 2019. DFS referred 192 cases to prosecutorial agencies in 2019, and prosecutors have obtained 271 convictions in these cases.

Reflecting the Diversity of New York

In October, DFS announced the formation of the state's first-ever women's committee to address the representation and advancement of women in the financial services industry and to identify the hurdles and obstacles to increasing the number of women in leadership roles, including promoting diverse women. The committee serves as a sub-committee of Governor Cuomo's Council on Women and Girls. The Superintendent has also promoted diversity in her leadership team and championed diversity in the financial services industry in various keynote speeches and symposia.

FOSTERING GLOBAL COOPERATION

New York is the financial capital of the global financial system, and DFS regulates the branches, agencies and representative offices of over 80% of the foreign banks operating in the United States. In 2019, DFS deepened relationships with its international counterparts to better respond to emerging challenges and opportunities. In 2019, DFS joined the Global Financial Innovation Network (GFIN), a consortium of 49 other financial regulators and organizations from around the world to encourage collaboration on a variety of pressing topics, such as crypto-currency licensing and cyber regulations. DFS continues to keep pace with fast-moving changes in financial innovation, and inclusion in GFIN presented numerous opportunities to engage with international partners to foster market innovation that improved the lives of consumers and made financial markets more resilient.

In October, Superintendent Lacewell met with regulatory counterparts from the Financial Conduct Authority and the Prudential Regulation Authority of the United Kingdom, the European Central Bank and the European Banking Authority, the European Insurance and Occupational Pensions Authority and the Official Monetary and Financial Institutions Forum to discuss best practices in green financing and harmonize efforts ensuring the safe conduct of supervised entities, preventing unsound and destructive competition, maintaining public confidence in the banking system, protecting the public interest, and addressing climate and cyber risks. DFS also signed the first fintech-oriented memorandum of understanding with the French Prudential Supervision and Resolution Authority (ACPR) and met with Consumers International, a membership organization for consumer groups across the world, committing to becoming a founding member and the first U.S. government entity to join the organization's consumer-focused Change Network initiative.

Commitment to Combatting Climate Change

Demonstrating New York's commitment to addressing climate change, in September 2019, DFS joined several international organizations committed to tackling this issue. During Climate Week, DFS became the first U.S. State banking regulator to join the Network for Greening the Financial System (NGFS), a group of nearly 50 central banks, supervisors, and international organizations that exchange experiences, contribute to the development of environment and climate risk management in the financial sector, and to mobilize mainstream finance to support the transition toward a sustainable economy. Its purpose is to define and promote best practices to be implemented within and outside of the membership of the NGFS and to conduct or commission analytical work on green finance.

DFS also joined the Sustainable Insurance Forum (SIF), a network of 25 leading insurance supervisors and regulators that seek to strengthen their understanding of sustainability issues for the business of insurance. SIF conducts surveys, issues reports describing best practices, and makes recommendations to the

International Association of Insurance Supervisors on topics relating to sustainability and climate change risk. SIF also provides advice to the World Bank Group and other international organizations on mitigating climate risk.

INSURANCE DIVISION OVERVIEW

Property Bureau

The Property Bureau oversees the financial condition and market conduct of property and casualty insurance companies in order to monitor the financial solvency of licensees and maintain an equitable marketplace for policyholders. It supervises more than 864 regulated entities with total assets of approximately \$1.5 trillion writing net premiums totaling more than \$459 billion.

The Property Bureau's Financial Section conducts examinations and analyses, which include reviewing and monitoring the financial condition of regulated entities, reviewing mergers, acquisitions and transactions within holding company systems and reviewing applications for the licensing of domestic and foreign insurers, accreditation of foreign and alien reinsurers, to qualify as certified reinsurers and for registration as service contract providers.

The Property Bureau Market Section reviews policy forms and rate filings for all lines of insurance, including workers' compensation, private passenger and public automobile and medical malpractice insurance rates. In addition, the Market Section oversees the American Arbitration Association's (AAA) administration of conciliation and arbitration of no-fault auto insurance claims disputes and monitors the excess and surplus lines insurance market, as well as risk retention groups and purchasing groups organized pursuant to the Federal Risk Retention Act.

The Property Bureau also conducts investigations of property and casualty insurers' underwriting, rating and claims practices to determine compliance with New York statutes and Department Regulations. The findings of these investigations may result in disciplinary action. Where appropriate, the Bureau seeks the return of improperly charged premiums and interest to New York policyholders and claimants.

Health Bureau

The Health Bureau regulates accident and health insurers with total assets of \$53.9 billion and premiums totaling \$51.2 billion. The Health Bureau has responsibility for all aspects of accident and health insurance regulation.

The Health Bureau regulates the licensing, certification, and fiscal solvency of accident and health insurance companies, Article 43 not-for-profit health plans, health maintenance organizations (HMOs), municipal cooperative health benefit plans, student health plans and continuing care retirement communities, including the review of financial statements and holding company transactions.

The Health Bureau conducts financial and market conduct examinations to ensure compliance with statutory and financial solvency requirements, as well as proper treatment of policyholders. The financial examinations focus on high-risk areas of an entity's operations and include corporate governance, internal controls, current and prospective risk assessment, and review of material transactions.

The Health Bureau reviews and approves health insurance premium rates and policy forms, and reviews provider networks for adequacy. The Health Bureau also reviews discontinuances of health insurance coverage.

The Health Bureau administers the Healthy NY program and the COBRA subsidy program which provide insurance coverage to vulnerable small businesses and individuals meeting certain eligibility criteria. In addition, the Health Bureau oversees the Healthy NY Stop Loss Funds, as well as the Market Stabilization Pool, which is a risk adjustment mechanism for Medicare Supplement coverage.

In conjunction with the Department of Health, the Health Bureau had overseen the NYS Medical Indemnity Fund since 2012. The Fund covers the cost of qualifying health care services, home, and vehicle modifications for enrollees with neurological impairments resulting from birth-related medical injuries. As required by the 2019-20 budget legislation, the program was successfully transferred to the Department of Health, effective October 1, 2019.

The Health Bureau implements health insurance legislation and drafts regulations and guidance. In 2019, the Bureau issued guidance and established requirements in a number of important areas including: prohibiting health insurance discrimination based on sex, including sexual orientation, gender identity, or transgender status; requiring coverage of PrEP for the prevention of HIV at no cost sharing; establishing standardized information to be included on insurance identification cards; prohibiting “gag clauses” in pharmacy provider agreements; requiring insurers to provide coverage for maternal depression screening under both the mother’s health insurance policy and the infant’s health insurance policy; allowing for the dispensing of a 12 month supply of contraceptives; reminding insurers of smoking cessation coverage requirements at no cost-sharing; advising insurers about coverage requirements for peer support services for the treatment of substance use disorder; and providing guidance to insurers about coverage requirements for mental health and substance use disorder treatment and providing model contract language and guidance to insurers about coverage requirements for IVF and fertility preservation services.

Life Bureau

The Life Bureau supervises more than 650 regulated entities, including 134 licensed life insurance companies with assets of \$3.2 trillion and premiums of more than \$267 billion.

The 134 life insurers supervised by the bureau include 82 domiciled in New York and 52 foreign domiciled insurers. In addition, the bureau supervises: 32 fraternal benefit societies; 12 retirement systems, including four private pension funds and eight governmental systems; nine governmental variable supplements funds; 392 charitable annuity funds; 22 employee welfare funds; 22 life settlement providers; 24 accredited reinsurers and five certified reinsurers.

The Life Bureau regulates financial condition through: the establishment and application of financial standards (risk-based capital, reserves, accounting, etc.); the periodic examination of insurance companies’ financial activities; the evaluation of reserve adequacy and liquidity and other risks; the review of life products for self-support and potentially excessive risk; and the analysis of financial statements and actuarial reports and opinions submitted by regulated entities. Such Bureau processes are performed to verify that statutory and regulatory financial standards are met and to ensure that insurers can meet their financial and contractual obligations.

The Life Bureau regulates market conduct through: the establishment of market conduct standards (product provisions, replacements, claims practices, etc.); the periodic examination of insurance companies' sales and marketing practices and treatment of policyholders; the investigation of specific or targeted market activities; and the analysis of market data. These processes are performed to: ensure compliance with statutory and regulatory requirements; ensure that policyholders are treated fairly and equitably by insurers in accordance with prescribed standards of conduct; and protect the marketplace by preventing and/or limiting practices that constitute unfair trade practices or unfair methods of competition.

The Life Bureau reviews and approves life insurance policies, annuity contracts, funding agreements, and all other agreements and policy forms relating thereto submitted by authorized life insurers and other regulated entities for sale in New York to individual or group consumers for compliance with applicable laws, rules and regulations. Legal and actuarial reviews are performed to ensure that New York consumers receive the protection afforded by New York law and regulations and to ensure that such consumers are treated in a fair and equitable manner by authorized life insurers and other regulated entities.

The Life Bureau regulates the corporate conduct of authorized insurers through: the establishment of corporate standards (corporate governance, holding company, licensing requirements, etc.); the enforcement of statutory and regulatory corporate governance standards; and the review and approval of activities including licensing, corporate reorganizations, mergers, acquisitions, demutualization and holding company transactions. In so doing, the Bureau verifies that statutory and regulatory requirements are met; ensures the prudent conduct of insurers; and protects policyholder interests.

BANKING DIVISION OVERVIEW

The entities regulated and supervised within the Banking Division provide for a healthy, highly competitive financial center, that enhances the liquidity of the local and national financial markets. These entities are also key contributors to New York State's labor force and economic vitality.

Community and Regional Banks

The Community and Regional Banks (CRB) Unit is responsible for the prudential regulation of community and regional banks, credit unions, and other depository institutions through annual examinations, periodic target reviews, and continuous supervision. CRB staff review the compliance of the supervised institutions with applicable New York State and Federal laws and regulations. CRB partners with the Federal Deposit Insurance Corporation, the Federal Reserve Bank of New York, and the National Credit Union Administration in joint supervision.

In 2019, CRB had supervisory oversight of a total of 78 banking institutions, including 43 commercial banks, 17 trust companies, 17 savings banks, and one savings and loan association. CRB also provides regulatory supervision for 15 credit unions with total assets of \$12 billion, five charitable foundations, three foreign branches, and two New York State-regulated corporations. The aggregate assets of institutions supervised by CRB total more than \$372 billion.

Foreign and Wholesale Banks

Foreign and Wholesale Banks (FWB) is responsible for the regulatory oversight of branches, agencies, and representative offices of Foreign Banking Organizations, wholesale domestic banks, Article XII investment companies and one private bank. Given the global nature of bank regulation, the Department maintains strong relationships with foreign banks' home country bank supervisory authorities.

During 2019, a total of 124 institutions with assets of more than \$2.3 trillion were subject to the division's regulatory oversight. This included 74 branches, 10 agencies and 30 representative offices of Foreign Banking Organizations as well as two Article XII institutions, three trust companies, one limited purpose trust company, three commercial banks and one private bank.

Licensed Financial Services

Licensed Financial Services (LFS) supervises budget planners, check cashers, licensed lenders, money transmitters, premium finance agencies, and sales finance companies. At year-end 2019, the Department had regulatory oversight of 28 budget planners, 100 check cashers, 18 licensed lenders, 113 money transmitters, 37 premium finance agencies, and 92 sales finance companies.

Mortgage Banking

The Mortgage Banking Unit is responsible for the licensing and supervision of mortgage bankers, mortgage brokers, mortgage loan servicers, and mortgage loan originators conducting business in New York State. At year-end 2019, Mortgage Banking supervised 475 registered mortgage brokers and 164 licensed mortgage bankers operating through 91 and 761 branch offices, respectively. Mortgage Banking also has supervisory authority for 35 registered mortgage loan servicers and 9,455 licensed mortgage loan originators.

Mortgage Assistance Unit

The mission of the Mortgage Assistance Unit (MAU) is to ensure that mortgage bankers, brokers, servicers, and loan originators licensed by the Department are in compliance with applicable laws and regulations in providing financial services to New York residents. To achieve this end, the MAU acts as an intermediary between consumers and financial institutions to resolve requests for assistance and answer inquiries concerning real estate-related financial products. The MAU works to identify patterns of non-compliance and advise the Superintendent on emerging policy issues. The MAU is also responsible for handling the DFS registry of vacant and abandoned properties.

CONSUMER PROTECTION AND FINANCIAL ENFORCEMENT DIVISION

The Department's Consumer Protection and Financial Enforcement Division is responsible for protecting consumers, and combating insurance and banking fraud, as well as frauds against users of financial products and services including consumers and investors. It also ensures that regulated entities comply with New York and federal law in relation to their activities serving the public.

The CPFED encompasses the Enforcement, Student Protection, Consumer Examinations, Consumer Assistance and Investigations and Intelligence units, as well as the Holocaust Claims Processing Office. The division also administers the Mobile Command Center (MCC), an important tool to inform, engage and support communities throughout New York State, particularly during times of crisis.

Enforcement Unit: Investigates civil financial fraud and violations of consumer and fair lending laws, the Financial Services Law, the Banking Law, and the Insurance Law;

Student Protection Unit: Protects students from fraud and misrepresentation regarding financial products and services; monitors student-related financial practices in New York; educates student consumers and their families about available financial products and services; and informally mediates complaints by student borrowers and their families against student loan servicers, debt relief companies and debt collectors.

Investigations and Intelligence Unit: Responsible for a variety of Department-related investigations, including those triggered by Part 500 cyber event notifications, as well as background investigations of licensing applicants in connection with student loan servicing, virtual currency exchanges, and other money services business licenses, and criminal banking and insurance fraud investigations..

Criminal Investigations Unit: The Criminal Investigations Unit, comprising the Insurance Frauds Bureau (IFB) and the Criminal Investigations Bureau (CIB), conducts specialized investigations into criminal conduct involving the financial services industry and works cooperatively with law enforcement and regulatory agencies at the federal, state, county and local levels. IFB investigates and combats healthcare fraud, which affects three major types of insurance: accident and health, private disability, and no-fault. CIB investigates violations of the New York Banking Law, certain enumerated misdemeanors and/or felonies under the New York Penal Law, as well as violations of anti-money laundering laws, terrorist financing and crimes relating to residential mortgage fraud. CIB also reviews the criminal histories of applicants for mortgage loan originator licenses to assist the Mortgage Banking and Legal Divisions in their determinations of whether applicants meet the statutory requirements to be licensed or registered as a mortgage loan originators, and conducts due diligence on applicants for a variety of licenses issued by the Department, including money transmitter, check casher and BitLicenses.

Consumer Assistance Unit: The Consumer Assistance Unit (CAU) is responsible for receiving, investigating and resolving consumer complaints involving insurance, banking and other financial issues through informal mediation and negotiation. In 2019, the CAU recovered \$67,860,076 on behalf of consumers and providers, and \$1,509,825 for New York consumers related to non-mortgage-related complaints, referrals, and inquiries.

Licensing Unit: The Licensing Unit oversees the licensing and activities of licensed individuals and entities that conduct insurance business in New York State. The goals of the Unit are to protect the public and ensure that licensees act in accordance with applicable insurance laws and regulations.

There are currently more than 375,000 insurance producer licensees in New York, including agents, brokers, adjusters, excess line brokers, life settlement brokers, independent and public adjusters, reinsurance intermediaries, bail agents, title agents, and life settlement brokers. The unit, in collaboration with the Producer Investigations and Disciplinary Units, reviews licensing applications, monitors the insurance marketplace to determine if unlawful or unlicensed activity is occurring and, if necessary, and takes steps to ensure that individuals or entities either achieve compliance or cease activities.

The Licensing Unit reviews applications, issues licenses, and processes renewal and relicensing applications for insurance companies, as well as licensed producers. In 2019, the Unit issued 112,905 licenses and collected more than \$22.9 million in fees. In addition, the Licensing Unit monitors, approves, audits, and supervises the administration of the pre-Licensing education program courses and the continuing education program. The Licensing Unit is the agent for service of process for licensed and unauthorized companies; in 2019, it accepted service of process for 19,172 actions against insurance companies.

Consumer Examinations Unit: Conducts fair lending, consumer compliance, and Community Reinvestment Act examinations; oversees the Banking Development District Program, as well as the registration and supervision of consumer credit reporting agencies

Holocaust Claims Processing Office: Advocates on behalf of Holocaust victims and their heirs, seeking the just and orderly return of assets to their rightful owners. From its inception through December 31, 2019, the HCPO has assisted individuals from 46 states, the District of Columbia, and 40 countries. To date, the HCPO has secured \$180,928,105 in offers¹ for bank, insurance, and other losses. The office facilitated restitution settlements involving 162 cultural objects. In 2019, HCPO claimants received \$2,680,475 in offers and the office coordinated settlements for 10 works of art. The 2019 HCPO Annual Report is available on the Department's website.

CAPITAL MARKETS DIVISION OVERVIEW

The Capital Markets Division provides the Department's expertise in complex financial products (bonds, equities, credit, derivatives, and commodities), enterprise risk management, financial analysis, information technology, internal controls and audit, research, fiduciary controls, regulatory accounting, and new financial products. The division works with the other DFS divisions in examinations and also conducts targeted examinations independently. The Division has the primary regulatory responsibility for the New York State-based public retirement systems and financial guaranty insurance companies. In addition, it leverages the business intelligence that DFS gathers with the aim of analyzing this data to identify emerging risks and macroeconomic trends that can be developed into topical reports and regular industry analysis.

The Capital Markets Division provides the Department's expertise in complex financial products (bonds, equities, credit, derivatives, and commodities), enterprise risk management, financial analysis, internal controls and audit, research, fiduciary controls, regulatory accounting, and new financial products. The division works with the other DFS divisions in examinations and also conducts targeted examinations independently. The division has the primary regulatory responsibility for limited purpose Trusts entities, and Wealth Management/Stock Transfer Companies. In addition, it leverages the business intelligence that DFS gathers with the aim of analyzing this data to identify emerging risks and macroeconomic trends that can be developed into topical reports and regular industry analysis.

¹ Processes offer victims or heirs monetary compensation calculated on the value of the lost assets, however, the total amount of funds available to a claims agency may be limited and may not allow for full payment of loss. Thus, the actual payment may be substantially less than the value of the lost asset. The full value noted in a decision is important as it recognizes the actual loss and guides in determining the amount of payment when full payment is not possible. Therefore, the HCPO reports the full value. Sometimes victims do not consider the offer adequate and do not agree to settle. In other cases, the percentage of the full value that is offered is the amount paid.

As the supervisor of New York State’s actuarially funded public retirement systems, Capital Markets continued its examinations of the New York State and Local Employee Retirement System, the New York City Employee Retirement System, New York City Teachers’ Retirement System, the New York City Fire Department Pension Fund, and the New York City Board of Education Retirement System.

CYBERSECURITY DIVISION OVERVIEW

DFS strengthened New York’s leading position in cybersecurity in 2019 by becoming the first banking or insurance regulator to establish a dedicated Cybersecurity Division. The new division builds upon the Department’s leadership as the first national or state regulator to implement a cybersecurity regulation designed to protect personal data and ensure the safety of banks, insurance companies and other financial services institutions. The Division’s mission is to improve cybersecurity across the financial services industry and beyond. The Cybersecurity Division created a unit of cybersecurity specialist examiners to conduct cybersecurity examinations across the industry. In addition, the Division is supporting Governor Cuomo’s cybersecurity efforts by bolstering the Cyber Security Advisory Board created by Governor Cuomo in 2013 with leading experts in cybersecurity. In advance of the critical 2020 elections, the board, which is co-chaired by Superintendent Lacewell, is assessing the threats to the security and integrity of our elections and recommending and implementing steps to strengthen election security.

RESEARCH AND INNOVATION DIVISION OVERVIEW

The recently created Division of Research & Innovation is responsible for fostering innovation in the marketplace that improves the lives of consumers and makes financial markets more healthy and resilient, while positioning DFS as a leading “regulator of the future” through improved internal use of technology for overseeing supervised marketplaces. The division engages with innovators ranging from incumbents to early state startups that are seeking to bring novel and innovative products and services to market.

LIQUIDATION BUREAU OVERVIEW

The New York Liquidation Bureau (NYLB) carries out the duties of the New York Superintendent in her capacity as receiver of impaired or insolvent insurance companies (estates) under New York Insurance Law Article 74.

The NYLB receives no funding from the State budget; rather, its expenses are paid from the assets of the estates under receivership, and reimbursements from the New York Property/Casualty Insurance Security Fund and the Public Motor Vehicle Liability Security Fund, established under Insurance Law Article 76, and the Workers’ Compensation Security Fund, established under New York Workers’ Compensation Law Article 6-A, which are paid from assessments on industry.

For each estate, the Superintendent is appointed Receiver by the Supreme Court of the State of New York. Thereafter, the Court supervises the Receivership and, by extension, the NYLB. Acting on behalf of the Receiver, the NYLB maximizes the assets and resolves the liabilities of the estates. The goal of a receivership is either to rehabilitate the insurer by removing the causes and conditions of the receivership or, if that is not possible, to liquidate it in order to distribute the assets to policyholders and creditors. In addition, the NYLB performs claims-handling and certain payment functions relating to the Security Funds. The Security Funds pay

eligible claims remaining unpaid due to the inability of an insolvent insurer to meet its obligations to policyholders.

At the end of 2019, the NYLB managed 18 domestic insurance companies and 12 fraternal benefit societies in liquidation. The Receiver also managed nine ancillary receiverships for insurance companies in liquidation in other states for the purpose of making eligible payments from the security funds. The combined number of receiverships (including domestic, fraternal and ancillary estates) managed by the Superintendent totaled 39 in 2019.

The NYLB closed one domestic receivership (Realm National Insurance Company) and three ancillary receiverships (Eagle Insurance Company, Guarantee Insurance Company and Northwestern National Insurance Company of Milwaukee, Wisconsin) in 2019. In addition, the Superintendent was appointed liquidator of one new receivership (Atlantis Health Plan, Inc.) and one ancillary estate (Northwestern National Insurance Company) in 2019.

REGULATORY AND LEGISLATIVE ACTIVITIES

REGULATIONS

Proposed, adopted on an emergency basis, and final adoptions of regulations completed during 2019 can be found on [our website](#).

INDUSTRY AND CIRCULAR LETTERS

[Banking Industry Letters](#) and [Insurance Circular Letters](#) for 2019, as well as the current and prior years can be found on our website.

CHANGES TO THE BANKING, INSURANCE AND FINANCIAL SERVICES LAWS

[Legislative Summaries](#) regarding changes to Insurance, Banking, Financial Services and related laws can be found on our website.

STATEMENTS, RECOMMENDATIONS OR DECISIONS OF THE SUPERINTENDENT

In 2019, the Superintendent issued several public statements, including statements supporting court decisions upholding New York's "Best Interest" Regulation 187, states' authority to protect student loan borrowers and the return of art stolen during the Holocaust to the rightful owners, as well as op-eds on the student debt crisis, the costs of climate change, and surprise medical bills. They can be found on the DFS website under [Statements and Comments](#).

In addition, the Superintendent exercised her Wild Card Authority, granted under Banking Law, three times in 2019, as discussed below. The Wild Card authority allows the Superintendent to react quickly to evolving federal banking regulations. When changes in federal statutes, regulations or interpretations grant powers to federally chartered institutions that state-chartered institutions do not have, the Superintendent may

authorize one or more state-chartered banking organizations of the same type to exercise the same powers. Additional information can be found in the 2019 Wild Card annual report.

2019 Wild Card authorizations providing parity between New York State-chartered institutions and their federally chartered counterparts:

Relief to Mutual Thrift Institutions to Select Trustees and Directors Without Regards to Age: This order permits individuals to serve as trustees of a New York State chartered mutual savings bank or as trustees of a mutual holding company formed by such a mutual savings bank without regard to the maximum age limitations. The order also permits individuals to serve as directors of a New York State-chartered mutual savings and loan association or as directors of a mutual holding company formed by such a mutual savings and loan association without regard to the maximum age limitations.

Order Permitting Well-Capitalized and Well-Managed Mutual Thrift Institutions to Select Trustees and Directors With Fewer Restrictions: This order permits individuals to serve as trustees of a New York State-chartered “well capitalized” and “well managed” mutual savings bank or as trustees of a mutual holding company formed by such a mutual savings bank without regard to the limitations on their family relationships. The order also permits individuals to serve as directors of a New York State-chartered well-capitalized and well-managed mutual savings and loan association or as directors of a mutual holding company formed by such a mutual savings and loan association without regard to the limitations on their family relationships.

Order to Permit Qualified New York State Chartered Credit Unions to Make Certain Loans to Officers And Employees Without Prior Board Approval: This order permits a Qualified New York State-chartered credit union to make covered loans to its officers and employees without regard to the requirement for approval by a majority of its entire board of directors, provided that any such covered loan is made in accordance with the lending policies and procedures approved by the board of directors; and provided that the covered loan does not have more favorable rates, terms or conditions than those available to the qualified credit union members.

LEGISLATIVE RECOMMENDATIONS FOR 2020

Licensing of Consumer Debt Collectors: This proposal would enhance the ability to protect New York consumers from abusive conduct by debt collectors by requiring them to obtain a license, abide by stringent licensing requirements and be subject to fines and other penalties.

Student Debt Relief Consultants: DFS would be granted authority to regulate the student debt relief industry by requiring consultants to adopt disclosure practices as well as establish guidelines governing student debt consulting contracts.

Protecting New Yorkers from Abusive Practices in the Financial Services Industry: This proposal would update the Financial Services Law by clearly defining unfair, deceptive and abusive acts or practices; enhancing monetary penalties to deter undesirable conduct; authorizing DFS to require restitution to victims of financial abuse and eliminating intentionality as a prerequisite to DFS action.

Elder Financial Abuse: This initiative would protect vulnerable adults from exploitation by authorizing the imposition of transaction holds on bank accounts under specific circumstances.
