The New York State Department of Financial Services seeks to build an equitable, transparent, and resilient financial system that benefits individuals and supports business. Through engagement, data-driven regulation and policy, and operational excellence, the Department and its employees are responsible for empowering consumers and protecting them from financial harm; ensuring the health of the entities we regulate; driving economic growth in New York through responsible innovation; and preserving the stability of the global financial system.

The Department of Financial Services is seeking a candidate for the position of Virtual Currency Financial Crimes Blockchain Analytics Risk Associate in the Virtual Currency Unit. Duties include, but are not limited to, the following:

- Evaluates illicit activity risk leveraging on-chain attribution and direct/indirect exposure associated with DFS-regulated virtual currency licensees through the use of blockchain analytics tools.
- Monitors and performs provenance tracing of on-chain transactions attributed to DFS applicant/licensee exposure to money laundering, terrorist financing, sanctioned jurisdictions/individuals/entities and other predicate crimes and high-risk services.
- Maintains a solid understanding of existing and emerging blockchains, tokens, and technologies impacting the industry and identifies areas for enhancing the Virtual Currency Unit's financial crimes monitoring processes related to the use of blockchain analytics.
- Actively monitors dashboards identifying data anomalies raising red flags for potential money laundering or sanctions violations, that require further investigation and/or escalation to management.
- Executes ad hoc investigations of identified suspicious activity to ensure licensees maintain compliance with state and federal regulations outside examination cycle and present findings to management.
- Proactively evaluates and monitors DFS regulated entities on-chain exposure to OFAC designations and FinCEN Section 9714 Orders and escalates findings to management.
- Conducts blockchain analytics transaction testing of DFS-regulated virtual currency businesses as a part of on-site examination and licensing.
- Performs reviews on applicants seeking a DFS license/charter, identifying transaction monitoring on-chain deficiencies and communicating said deficiencies clearly and concisely in written reports to management as well as verbally in meetings with internal and external stakeholders as needed.
- Identifies contradictory attribution of on-chain transactions from blockchain analytics vendors and works with the

vendors to resolve discrepancies.

- Serves as a subject matter expert on crypto related financial crime matters for all functions of the Virtual Currency Unit, including applications, examinations, and ad-hoc supervision including the consideration of material-change-of-business requests.
- Maintains a good understanding of the BSA/AML and OFAC Sanctions laws, regulations, guidance, and best practices, relevant to transaction monitoring, suspicious activity reporting, money laundering typologies and investigative techniques required to detect illicit activity and identify sanctions evasion within the virtual currency space.
- Assists management in the development, review and revision of Financial Crime related policies and procedures.
- Presents analyses and findings to colleagues and leadership at DFS, often making reasoned recommendations for agency action.
- May supervise lower-level staff,
- Travel may be required for up to 25%, and
- Other appropriate and occupationally related duties as assigned.

Preferred Qualifications

Subject matter expertise and/or experience in one or more of the following are not required, but are strongly preferred:

- 2+ years of direct experience working in the crypto industry utilizing blockchain analytics and OSINT tools
- Subject matter expertise in transaction monitoring including on-chain and off-chain alerts/investigations
- Solid knowledge of Bank Secrecy Act/Anti-Money Laundering (BSA/AML), Sanctions (OFAC), and related laws, regulations, guidance, and best practices
- General Knowledge of Cybersecurity laws, regulations, and issues
- Valid (non-expired) Certifications held:
 - Blockchain analytics certification(s)
 - Association of Certified Anti-Money Laundering Specialists: Certified Anti-Money Laundering Specialist, Advanced AML Audit Certification, Advanced Financial Crimes Investigations Certification
 - Association of Certified Financial Crime Specialists: Certified Financial Crime Specialist
